Tel: (07) 5576 5399

We are excited to share with you the news that we are shortly to undergo major renovations at our practice. It has been a year long planning journey and we have finally received the approval from the landlord to go ahead. The extent of these renovations is such that we will unfortunately be having some downtime between mid-May and the end of June. As for any emergencies that may arise, we will be contactable during this period through email to address any of your concerns or direct you to appropriate dental clinics for emergency care.

For patients who already have appointments booked during May/June, Leanne will be in touch shortly to reschedule to either before or after the renovation period.

For patients with treatment pending and prefer not to wait until July, it might be an idea to call up and see what can be arranged prior to mid-May.

Another point to mention is patients with health funds that run to the end of the financial year and are wanting to maximize their dental benefits should be looking at scheduling appointments ASAP.

This is an exciting time for our practice and our patients, and we are very much looking forward to sharing our brand new "State of the Art" clinic with you.

If you have any queries regarding timing and treatment please feel free to call and discuss with us.
